

Firmware Update Instructions

1. Please download the latest firmware **.bin file** in the firmware update section from <https://cubiox.muherz.com/Download.html>
2. Insert the mSD card that comes with Cubiio X.
3. Drag and drop the downloaded **.bin file** to the root directory of the mSD card.
4. Insert the card back into the mSD card slot at the back of Cubiio X.
5. Plug in the power and turn on Cubiio X. You will see a firmware update message - **please wait until it completes.**
6. **Please restart the system to reset all configuration settings.** - new 20231109
7. After the update is complete, the machine's screen will display the current firmware version at the bottom.
8. You can go to the 'Info' page to check the current firmware version.

韌體更新說明 中文版

1. 請於**韌體更新**的區域下載最新的韌體.bin檔 <https://cubiiox.muherz.com/Download tw.html>
2. 請讀取Cubiio X隨機附贈的mSD卡
3. 將下載好的.bin檔拉至mSD卡中的頂層
4. 將卡片放回機器後方的mSD卡片讀取槽
5. 插上電源開機，會出現機器正在更新韌體的說明，請等待直到該畫面結束
6. **請重新開機，以重置所有的組態設定 - new 20231109**
7. 更新完成後，進入機器的畫面下方會顯示機器目前的韌體版本號
8. 可至Info頁面查看目前的韌體版本
